

# User Manual

## 1.Admin Function Section

When open the <http://localhost:8000/cgi-bin/home.cgi>, the administrator will see the home page of this voting software, as shown in Figure 1.1.

Figure 1.1 Homepage

After clicking "Administrator Interface", the administrator login interface will appear, and you need to enter the administrator's specific password "admin", as shown in Figure 1.2.

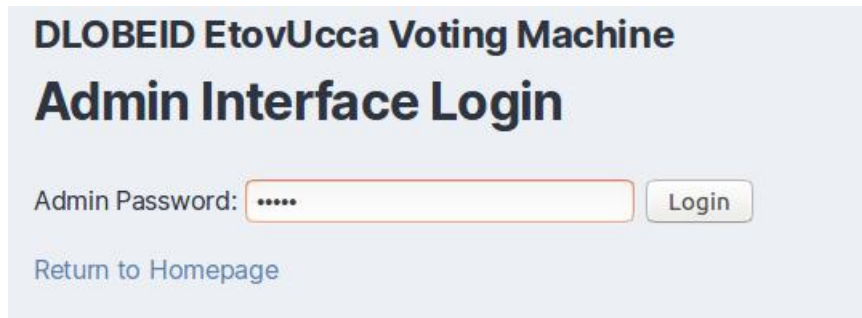

Figure 1.2 Admin Interface Login

If the login is successful, the following administrator interface will appear, the administrator can add elections on this interface, set the election date, office, zip code and candidate.
